consistency determination unless the State concurs or concurrence is presumed, pursuant to paragraphs (a) and (b), with the activity, or unless both the Federal agency and the State agency agree to an alternative period.

- (d) Time limits on concurrences. A State agency cannot unilaterally place an expiration date on its concurrence. If a State agency believes that an expiration date is necessary, State and Federal agencies may agree to a time limit. If there is no agreement, later phases of, or modifications to, the activity that will have effects not evaluated at the time of the original consistency determination will require either a new consistency determination, as supplemental consistency determination under \$930.46, or a phased review under \$930.36(d) of this subpart.
- (e) State processing fees. The Act does not require Federal agencies to pay State processing fees. State agencies shall not assess a Federal agency with a fee to process the Federal agency's consistency determination unless payment of such fees is required by other federal law or otherwise agreed to by the Federal agency and allowed by the Comptroller General of the United States. In no case may a State agency stay the consistency review period or base its objection on the failure of a Federal agency to pay a fee.

[65 FR 77154, Dec. 8, 2000, as amended at 71 FR 827, Jan. 5, 2006]

§930.42 Public participation.

- (a) Management programs shall provide for public participation in the State agency's review of consistency determinations. Public participation, at a minimum, shall consist of public notice for the area(s) of the coastal zone likely to be affected by the activity, as determined by the State agency.
- (b) Timing of public notice. States shall provide timely public notice after the consistency determination has been received by the State agency, except in cases where earlier public notice on the consistency determination by the Federal agency or the State agency meets the requirements of this section. A public comment period shall be provided by the State sufficient to give the public an opportunity to develop and provide comments on wheth-

er the project is consistent with management program enforceable policies and still allow the State agency to issue its concurrence or objection within the 60 day State response period.

- (c) Content of public notice. The public notice shall:
- (1) Specify that the proposed activity is subject to review for consistency with the enforceable policies of the management program;
- (2) Provide sufficient information to serve as a basis for comment;
- (3) Specify a source for additional information, e.g., a State agency web site; and
- (4) Specify a contact for submitting comments to the State agency.
- (d) Procedural options that may be used by the State agency for issuance of public notice include, but are not limited to, public notice through an official State gazette, a local newspaper serving areas of coastal zone likely to be affected by the activity, individual State mailings, public notice through a management program newsletter, and electronic notices, e.g., web sites. However, electronic notices, e.g., web sites, shall not be the sole source of a public notification, but may be used in conjunction with other means. Web sites may be used to provide a location for the public to obtain additional information. States shall not require that the Federal agency provide public notice. Federal and State agencies are encouraged to issue joint public notices, and hold joint public hearings, to minimize duplication of effort and to avoid unnecessary delays, so long as the joint notice meets the other requirements of this section.

§ 930.43 State agency objection.

- (a) In the event the State agency objects to the Federal agency's consistency determination, the State agency shall accompany its response to the Federal agency with its reasons for the objection and supporting information. The State agency response shall describe:
- (1) How the proposed activity will be inconsistent with specific enforceable policies of the management program; and
- (2) The specific enforceable policies (including citations).

§ 930.44

- (3) The State agency should also describe alternative measures (if they exist) which, if adopted by the Federal agency, would allow the activity to proceed in a manner consistent to the maximum extent practicable with the enforceable policies of the management program. Failure to describe alternatives does not affect the validity of the State agency's objection.
- (b) If the State agency's objection is based upon a finding that the Federal agency has failed to supply sufficient information, the State agency's response must describe the nature of the information requested and the necessity of having such information to determine the consistency of the Federal agency activity with the enforceable policies of the management program.
- (c) State agencies shall send to the Director a copy of objections to Federal agency consistency determinations.
- (d) In the event of an objection, Federal and State agencies should use the remaining portion of the 90-day notice period (see §930.36(b)) to attempt to resolve their differences. If resolution has not been reached at the end of the 90-day period, Federal agencies should consider using the dispute resolution mechanisms of this part and postponing final federal action until the problems have been resolved. At the end of the 90-day period the Federal agency shall not proceed with the activity over a State agency's objection unless:
- (1) the Federal agency has concluded that under the "consistent to the maximum extent practicable" standard described in section 930.32 consistency with the enforceable policies of the management program is prohibited by existing law applicable to the Federal agency and the Federal agency has clearly described, in writing, to the State agency the legal impediments to full consistency (See §§ 930.32(a) and 930.39(a)), or
- (2) the Federal agency has concluded that its proposed action is fully consistent with the enforceable policies of the management program, though the State agency objects.
- (e) If a Federal agency decides to proceed with a Federal agency activity that is objected to by a State agency,

or to follow an alternative suggested by the State agency, the Federal agency shall notify the State agency of its decision to proceed before the project commences.

§ 930.44 Availability of mediation for disputes concerning proposed activities.

In the event of a serious disagreement between a Federal agency and a State agency regarding the consistency of a proposed federal activity affecting any coastal use or resource, either party may request the Secretarial mediation or OCRM mediation services provided for in subpart G.

§ 930.45 Availability of mediation for previously reviewed activities.

- (a) Federal and State agencies shall cooperate in their efforts to monitor federally approved activities in order to make certain that such activities continue to be undertaken in a manner consistent to the maximum extent practicable with the enforceable policies of the management program.
- (b) The State agency may request that the Federal agency take appropriate remedial action following a serious disagreement resulting from a Federal agency activity, including those activities where the State agency's concurrence was presumed, which was:
- (1) Previously determined to be consistent to the maximum extent practicable with the management program, but which the State agency later maintains is being conducted or is having an effect on any coastal use or resource substantially different than originally described and, as a result, is no longer consistent to the maximum extent practicable with the enforceable policies of the management program; or
- (2) Previously determined not to be a Federal agency activity affecting any coastal use or resource, but which the State agency later maintains is being conducted or is having an effect on any coastal use or resource substantially different than originally described and, as a result, the activity affects any coastal use or resource and is not consistent to the maximum extent practicable with the enforceable policies of the management program. The State
